Profile:	The mission of Kinkead Ridge is to produce ultra-premium estate-bottled wine in Southern Ohio, exclusively vinifera, with great attention and care paid to cultural practices and classic winemaking techniques. At Kinkead Ridge, we have the advantage of ancient soils underlain by hundreds of feet of broken limestone on ridge tops overlooking the Ohio River. We have excellent exposure and air drainage due to our 450' elevation above and two mile proximity to the Ohio river, approximately 55 miles southeast of Cincinnati. Prior to establishing this vineyard, the partners owned and operated a 40 acre Pinot Noir vineyard outside Portland, Oregon, which was sold to Tony Soter (Etude).
